Education

The emerging technologies and fast-paced growth of the global digital economy has sparked demand everywhere for resources and talents that could drive their development.

As the Education sector continues to redefine skills that are needed to educate a new generation of global citizens, developing the requisite skills and knowledge for those keen to take up a career in this field will be critical to ensure their success and employability amidst the changing global environment.

Meanwhile, for an experienced Educator, upskilling by taking up new credentials and developing advanced knowledge whilst keeping abreast with latest ideas, pedagogies, and methodologies; will enable them to facilitate academic, social, and emotional growth in innovative and exciting ways, having a real impact on students as they teach.

Programme Overview

This course examines: Introduction to Child Development, Foundations of Growth: Infancy, Early Learning, Motor Skills, and Perceptual Capacities; Cognitive Development: Piaget's and Vygotsky perspective; Cognitive Development: An Information-Processing Perspective, Moral Development, Language Development, Emotional Development, Intelligence and Facilitating Complex Thinking, Emergence of Self and Development of Self-Concept.
