Education

The emerging technologies and fast-paced growth of the global digital economy has sparked demand everywhere for resources and talents that could drive their development.

As the Education sector continues to redefine skills that are needed to educate a new generation of global citizens, developing the requisite skills and knowledge for those keen to take up a career in this field will be critical to ensure their success and employability amidst the changing global environment.

Meanwhile, for an experienced Educator, upskilling by taking up new credentials and developing advanced knowledge whilst keeping abreast with latest ideas, pedagogies, and methodologies; will enable them to facilitate academic, social, and emotional growth in innovative and exciting ways, having a real impact on students as they teach.

Programme Overview

The course examines the Malaysian Constitution pertaining to Malaysian Education policies, Education Acts, and school regulations; the laws and regulations that deal with the teaching profession and those related to juvenile cases and problems faced by students in schools. It also discusses the difference between civil and school cases and how to deal with these cases. Crucially, the course will introduce legal cases in relation to problems faced by schools.
