Micro-Credential in Graphics Software (Adobe Illustrator and Adobe Photoshop)

UNITAR MICRO CREDENTIAL

INTERMEDIATE
GRAPHICS SOFTWARE
(ADOBE ILLUSTRATOR & ADOBE PHOTOSHOP)
UNITAR MICRO CREDENTIAL
CREATIVE & DESIGN

Delivery mode: Online

Duration of Study: 7 Weeks / 28 Hours

Level: Intermediate
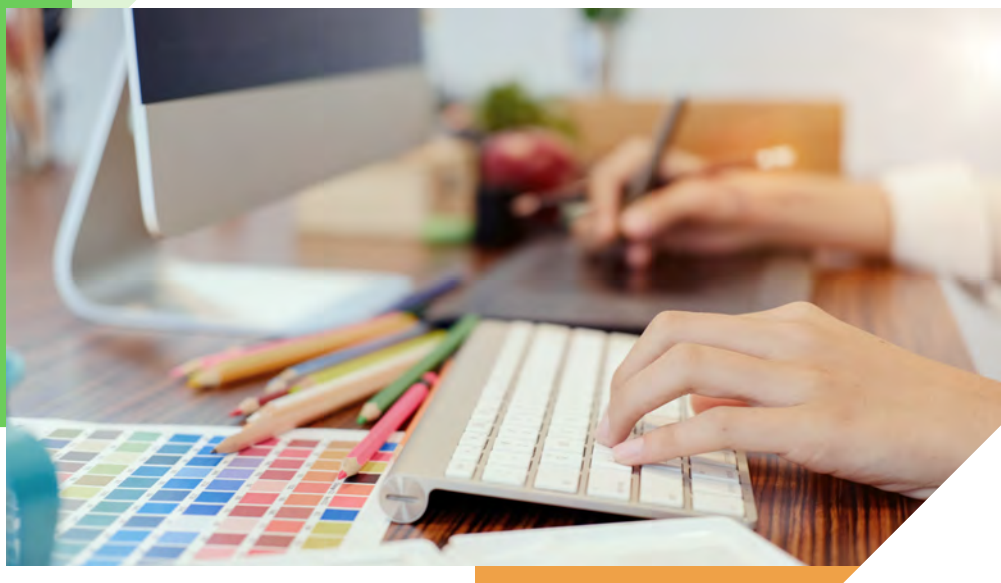

Creative & Design

Malaysia's rapidly evolving creative industry is becoming a significant growth driver to the nation, creating the demand for a new generation of highly-skilled creative talents in this field, including various design professionals, digital content developers and producers.

In today's digital world, emerging talents in the creative fields need more expertise in their craft to find career success. With more emphasis needed to skills development, advanced professional certification, and reframing your creative skill in a professional perspective will be valuable towards helping you develop adequate marketable and industry-relevant skills that will set yourself apart from the rest.

Programme Overview

Participants will learn how to use digital graphics software, such as Adobe Photoshop and Adobe Illustrator, which are the most commonly-used design application in the market, to produce creative work. Skills and knowledge gained from this programme will be useful for applying in design work and creative materials whether for personal or business use.

Areas of Knowledge

• Identify how a visual image can be an effective means of communication by using graphics software.

• Practice skills needed to creatively solve visual communication problems with graphics software.

• Build a design in a wide range of images and illustration by using graphics software.

Assessment

• Coursework: 100%
• Examination: None

Why Study This Programme?

Enhance your technical and digital skills for the ever-demanding digital environment of IR4.0.

Digital design gives you the skills that are in demand and you can apply to many different career paths.

Pick up a new skill in using graphics software and start producing your own creative work!

Learn how to use and apply digital graphics software technique and develop strategically-creative design thinking.

Gain understanding of the creative process from design development, application of graphics software till design production.

Why UNITAR?

5-STAR QUALITY

5-STAR rating in QS for Teaching, Employability, Inclusiveness, Online Education and Accounting and Finance.

AFFORDABILITY

HRDF and various financial aid available.

UNITAR C.A.R.E

We ensure that students are well-equipped with applicable skills: Collaborative, Adaptive, Reflective and Entrepreneurial.

COURSE PROGRESSION >>>

Credits from this Micro-Credential Programme are transferable to the following full academic programme:

Diploma in Animation Design

Course Modules

Lesson 1: Basics of Computer Graphics

Lesson 2: Graphic Devices and Software

Lesson 3: Introduction to Adobe Illustrator CC
• The workspace and control panel

Lesson 4: Adobe Illustrator CC
• Creating object using tools

Lesson 5: Adobe Illustrator CC
• Designing type and layout

Lesson 6: Adobe Illustrator CC
• Working with the colour and swatches panels

Lesson 7: Adobe Illustrator CC
• Effects and the perspective grid

Lesson 8: Adobe Illustrator CC
• Pattern

Lesson 9: Introduction to Adobe Photoshop CC
• The workspace and control panel

Lesson 10: Adobe Photoshop CC
• Adding text to your graphics

Lesson 11: Adobe Photoshop CC
• Adding a shape and masking

Lesson 12: Adobe Photoshop CC
• Image repair and manipulation

Lesson 13: Adobe Photoshop CC
• Brush tool and options

Lesson 14: More on Adobe Illustrator and Photoshop
