

Micro-Credential in School Effectiveness and Improvement

Delivery mode: Online

Duration of Study: 7 Weeks / 7 Hours

Level: Advanced

Career Prospects

- Curriculum Specialist
- Learning Designer

Education

The emerging technologies and fast-paced growth of the global digital economy has sparked demand everywhere for resources and talents that could drive their development.

As the Education sector continues to redefine skills that are needed to educate a new generation of global citizens, developing the requisite skills and knowledge for those keen to take up a career in this field will be critical to ensure their success and employability amidst the changing global environment.

Meanwhile, for an experienced Educator, upskilling by taking up new credentials and developing advanced knowledge whilst keeping abreast with latest ideas, pedagogies, and methodologies; will enable them to facilitate academic, social, and emotional growth in innovative and exciting ways, having a real impact on students as they teach.

Programme Overview

The purpose of this course is to develop the capability to examine the school effectiveness and improvement practices in excellent schools in Malaysia. Learning contents are based on the content of effective school models and exemplary schools in other countries in order to study their best practices. This course will contribute to the existing body of knowledge on school effectiveness and improvement practices particularly experienced by Malaysia. It will also benefit school effectiveness practitioners in developing countries through academically-systematic research findings.

Assessment

- Coursework: 100%
- Examination: None

Areas of Knowledge
